Creatively Reimagining Engagement With Data in Biology Learning Environments

Cohort 2 members – find project materials here!

Welcome to the **Project CREDIBLE (Creatively Reimagining Engagement With Data in Biology Learning Environments**) website.

Project CREDIBLE is an NSF-funded STEM education research project associated with the University of Tennessee, Knoxville, The Great Smoky Mountains Institute at Tremont, and DataClassroom.

This website contains :

- About the project and how to get in touch

- Details about Cohort 1, our first cohort of collaborating teachers

- Links to tools and related resources

- Information on recruitment for our 2025-2026 cohort

- The ABCs of Data
